GREATLY IMPROVED PIANO-FORTE .-LIGHTE & BRADBURYS, GRAND and SQUARE PIANO-FORTES,

We desire to inform the Profession, the Trade, and the Bublic generally, that, having rebuilt our Factory, recently destroyed by fire, on a greatly enlarged and improved plan, we are new prepared to supply our friends with our NEW SCALE.

OVERSTRUNG BASS PATENT INSULATED FULL IRON-FRAME PIANO-FORTES.

In rebuilding our Factory, years of experience have enabled us to introduce very many improvements both in the structure of the building and in the machinery, and in getting up our New PIANO-FORTE our sim and determination has been to produce an instrument that shall defly competition. Our first artists have cheerfully testified to the great superflority of our NEW SCALE PIANO-FORTES. We cordially invite all to examine for themselves.

STEINWAY & SONS

TATENT OVERSTRUNG GRANDS,
AND SQUARE PIANOS

Are now considered the best Pianos manufactured.
Opinion of nearly all the greatest and most prominent Musicians and Artists regarding these instruments:
The undersigned, baving personally examined and practically tested the improvement in Grand Pianos invented by H. STEINWAY, in which the covered strings are overstrung above those remaining, do hereby certify:

1. That as result of the said improvement the voice of the Plano is greatly improved in quality, quantity and power.

2 The sound by Steinway's improvement is much more even, less harsh, etronger, and much better prolonged, than that realized in any other Plano with which we are acquainted.

3. The undersigned regard the improvement of fir. Steinway as most novel, ingenious and important. No Plano of similar construction has ever been known or used, so far as the undersigned know or believe.

THE DRIGGS PATENT, or the VIOLIN
PIANOS—Manufactured and sold by the DRIGGS PIANO
COMPANY, No. 548 Broadway. There is no strain whatever
upon the cases or sounding boards. There are two soundingboards, outwardly convex like the violin, girling three times the
vibratory surface obtained in any other plum. The sirch is
borne by an independent iron frame, and it is stronger and will
remain in tune longer than any other Plano. The case forms a
vibratory shell, the same as the body of a violin, and is not filed
up with heavy blocks and planking as in other Planos. Its con
struction is far more; simple, and it is the only Piano made on
scientific principles. "IT IS THE BEST PIANO-FORTE EXISTING."
